DIRECTIONS FOR USE

READ ENTIRE LABEL - USE IN ACCORDANCE WITH LABEL INSTRUCTIONS.

APPLICATION RATES

SOIL INCORPORATION: Use 1.2-4.8 kg/cu yard of growing media.

TOP DRESS: Use 1.5-6 g/L of growing media.

NOTE: Since plant varieties are numerous and may react differently, test the product on a small scale before making large-scale applications.

APPLICATION DIRECTIONS

Apply Valena to help with the growth of plants by:

SOIL INCORPORATION: Incorporate the desired rate of material to the growing media and mix thoroughly until completely dispersed.

TOP DRESS: Sprinkle the desired rate on the top of the growing media around the base of the growing plant. Water Valena in by use of standard irrigation practices to hydrate and distribute the product into the growing media. Sub-irrigation is not recommended for this type of application.

NOTE: Valena is not water soluble, do not include Valena in an irrigation system.

COMPATIBILITY

Limited compatibility testing has been conducted for Valena with other commonly used fertilizers or soil amendments. As such, use of Valena™ with any other product shall be the exclusive risk and responsibility of the user. Consult specific product labels for additional information. Conduct a compatibility test when you plan to mix Valena™ with other products and test mixture on a small scale before making large-scale applications.

STORAGE AND DISPOSAL

Storage: Do not contaminate water or food by storage and disposal. Store in original container in a cool, well-ventilated, dry place. Close package tightly when not in use.

Container disposal: Do not reuse or refill this container. Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

The manufacturer makes no warranties, expressed or implied, concerning this product or its use, which extend beyond the description on the face hereof. All statements made concerning this product apply only when used as directed.
